| Status: | New | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | Interaction Module | Estimated time: | 0.00 hour |
| Target version: | V1.0 Alpha6 release | | |
| Resolution: | | | |
| Description | | | |
| <p>Whenever a client disconnects during being in the selection state the highlighted box won't be remove on the other hosts. The correct behavior would be that the highlight object is removed at the other hosts as soon as a client disconnects (of what reson ever).</p> | | | |
