Target version:			
Resolution:	fixed		

Description

OrientationSingleAxisModel has a minThreshold parameter, which can be used to ignore small non-zero values of a badly centered joystick axis.

OrientationDualAxisModel does not have a similiar parameter.

It would be nice, if OrientationDualAxisModel had the same parameter.

History

#1 - 06/14/2011 10:30 AM - sam g

- Assignee set to sam g

- Resolution set to fixed

done r2240

new parameter:

- minThresholdX
- minThresholdY
- minThreshold = shortcut for X and Y
